

# Conservation Posters

Each year, MCPS students and staff are encouraged to participate in the *Watts Up?* energy/water conservation and recycling awareness poster contest, sponsored by SERT. The entries are judged and winners are chosen. Some of the winning entries are then converted into large (17"x 22") full-color posters and distributed systemwide. While supplies last, some of the posters shown here may be available from SERT via Maximo. [Click here](#) for ordering instructions and a list of recycling supplies and posters available.
