

# Bethesda, Somerset, and Westbrook Elementary Schools Boundary Report

June 2021

## **Scope of Boundary Study**

On November 19, 2020, the Board of Education authorized a boundary study to explore school assignments between Bethesda, Somerset, and Westbrook elementary schools (Resolution Nos. 514-20 and 515-20). Bethesda and Somerset elementary schools are projected to exceed capacity and Westbrook Elementary School will have available capacity during the six-year planning period. All three schools are part of the Bethesda-Chevy Chase Cluster and articulate to Westland Middle School; therefore, it was not necessary to include the middle or high schools in this boundary study. Please see Attachment A for the current articulation chart of these schools and a map.

## **Background**

The service areas of Bethesda, Somerset, and Westbrook elementary schools are adjacent. By the 2026–2027 school year, enrollment at Bethesda Elementary School is projected to be 741 students, 181 seats more than its capacity of 560 students. Somerset Elementary School is projected to be 546 students, 31 seats more than its current capacity of 515 students. Westbrook Elementary School is projected to be 349 students, with 198 seats available at its current capacity of 547 students.

On May 21, 2020, the Montgomery County Council adopted the *FY 2021 Capital Budget and the FY 2021–2026 Capital Improvements Program* (CIP) for Montgomery County Public Schools (MCPS). A classroom addition for Bethesda Elementary School was approved to address its space deficits. However, due to fiscal constraints, the Board of Education’s request to include funding for a three-classroom shell buildout for Westbrook Elementary School to address the overutilization at Somerset Elementary School was not approved, with all expenditures for this project removed from the adopted CIP.

The *Board of Education’s Requested Fiscal Year (FY) 2022 Capital Budget and Amendments to the FY 2021–2026 Capital Improvements Program*, released on November 1, 2020, eliminated funding for the Bethesda Elementary School addition project and added back the funding to the Westbrook Elementary School shell buildout project as part of an effort to address revenue shortfalls and take advantage of available capacity at Westbrook Elementary School. On May 27, 2021, the County Council adopted the MCPS amended *FY 2021–2026 CIP* and approved the shell buildout project for Westbrook Elementary School, as requested by the Board of Education. As a result, the capacity at Westbrook Elementary school will increase to 614 students, and based on the student enrollment projections, 265 seats will be available to accommodate students from Bethesda and/or Somerset elementary schools.

## **Planning Factors**

Board of Education Policy FAA, *Educational Facility Planning*, guides the boundary study process when changing school boundaries, and the following four factors are considered. Although these factors were considered as staff developed the options, not all factors were always able to be reconciled in each option. The factors are described in the following paragraphs:

### Demographic Characteristics of Student Population

Analyses of options should consider the impact of various options on the overall populations of affected schools. Options should strive to create a diverse student body in each of the affected schools in alignment with Board of Education Policy ACD, *Quality Integrated Education*. Demographic data indicating the impact of various options include:

- racial/ethnic composition of the student population;
- socio-economic composition of the student population;
- level of English language learners and other reliable demographic indicators; and
- participation in specific educational programs.

### Geography

In accordance with MCPS emphasis on community involvement in schools, options should consider the geographic proximity of communities to schools, as well as articulation, traffic, and transportation patterns, and topography. In addition, options should consider, at a minimum, other adjacent schools—not only schools within a high school cluster.

### Stability of School Assignment over Time

Options should result in stable assignments for as lengthy a period as possible. Student reassignments should consider recent boundary or geographic student choice assignment plan changes and/or school closings and consolidations that may have involved the same students.

### Facility Utilization

School boundary and geographic student choice assignment plans should result in facility utilizations in the 80 to 100 percent efficient range for the long term, whenever possible. Shared use of a facility by more than one cluster may be the most feasible facility plan in some cases, taking into consideration the impact of the resulting articulation pattern on the community. Plans should be fiscally responsible to minimize capital and operating costs whenever feasible.

## **Stakeholder Input**

Staff solicited stakeholder input in accordance with Board of Education Policy ABA, *Community Involvement*. This input will advise the interim superintendent of school's recommendation for Board of Education review and action. Outreach was conducted through a variety of different mechanisms that included the following:

- Connect-ED messages;
- Communitywide virtual meetings;
- Webcast;
- Online surveys; and
- Review of e-mail communications and letters.

Descriptions of the outreach methods follow:

#### Connect-ED Messages and Flyers to Schools

Staff in the Division of Capital Planning collaborated with staff in the Office of Engagement, Innovation, and Operations to share information about the boundary study with stakeholders. All information relating to the boundary study was posted on the Division of Capital Planning website. Information flyers in English and Spanish languages were provided to the three elementary schools included in the boundary study to notify the school community of all upcoming meetings. In addition, staff in the Department of Communications sent Connect-ED electronic voice messages and electronic messages to the homes of all students at the three elementary schools. Electronic mail messages notified parents of upcoming meetings and the availability of an online survey during the boundary process.

#### Communitywide Meetings

Staff in the Division of Capital Planning facilitated all boundary study meetings. Each meeting was conducted virtually. The Q&A function was used for attendees to submit written questions to which staff responded during the last portion of each meeting. At the first set of meetings, staff presented the following information:

- Background and scope;
- Projections and seats available;
- Board of Education Policy FAA and Planning Factors;
- Boundary Process; and
- Schedule of Meetings.

Staff answered many questions relating to the history and process. Approximately 30 individuals attended the first set of meetings.

Staff presented five options for stakeholder consideration at the second set of meetings. The presentation included the guiding parameters for option development, as well as a review of the policy factors and background. One meeting was recorded and posted on the Division of Capital Planning website to allow stakeholders who could not attend one of the two virtual meetings to view the information online. Approximately 30 individuals attended these two meetings. Based on the input received after the second set of meetings and feedback from the first survey, staff determined that additional options needed to be developed for community input. Four additional options were developed, totaling nine boundary options.

The purpose of the third set of meetings was to present the four additional options, review the online survey results, and review the Board of Education decision-making process. Staff also indicated that a second online survey would be posted to include all nine boundary options.

#### **Option Development**

In accordance with Board of Education Policy FAA, *Educational Facilities Planning*, the superintendent of schools directs staff to develop options when changing school boundaries. Staff in the Division of Capital Planning developed a range of nine options to advance each

of the factors previously described. As stated previously in the Planning Factor section, not all options advance each of the factors considered as part of this boundary study—options advance some or all factors to varying degrees. A description and analysis of the options are provided later in this report.

Several zones were defined within the Bethesda, Somerset, and Westbrook elementary schools attendance areas. To develop the options, staff in the Division of Capital Planning used the following guiding parameters:

- Advance the four Board policy factors that include:
  - Demographic Characteristics of Student Population
  - Geography
  - Facility Utilization
  - Stability of School Assignment over Time
- Maximize walkers, and
- Develop options that would grandfather Grade 5 students.

**Current State**

The following table illustrates the racial and ethnic composition for the schools in the boundary study for the 2020–2021 school year, as well as the percent of students receiving Free and Reduced-price Meals Systems (FARMS) and English for Speakers of Other Languages (ESOL) services.

**Racial/Ethnic Composition**

	2020–2021						
Elementary Schools	% Black or African American	% Asian	% Hispanic/Latino	% White	% Two or More	% FARMS	% ESOL
Bethesda	9.2	17.4	17.0	47.8	8.6	12.1	23.6
Somerset	8.6	11.4	13.8	58.0	8.0	12.2	28.2
Westbrook	2.7	5.4	14.5	70.7	6.0	0.0	3.6

The difference among the elementary schools in the racial/ethnic composition of the student body range from 22.8 percent in the White population between Bethesda and Westbrook elementary schools, to 0.6 percent in the Two or More population between Bethesda and Somerset elementary schools. Regarding the FARMS and ESOL population, the difference ranges from 12.2 percent between Somerset and Westbrook elementary schools, and 24.6 percent between Somerset and Westbrook elementary schools respectively.

The data presented for the elementary schools reflects the grandfathering of Grade 5 students for the elementary school students for the 2022–2023 school year. Therefore, based on the staff- developed options, in the 2022–2023 school year, only kindergarten through Grade 4 students would be reassigned from Bethesda and/or Somerset elementary schools and full implementation of kindergarten through Grade 5 students would occur in the 2023–2024 school year.

This boundary study will not be fully implemented until the 2023–2024 school year. The adopted CIP for MCPS includes funding for the buildout of a classroom shell for Westbrook Elementary School. The approved completion date for the project currently is September 2023. However, it is possible to complete the addition earlier. The interim superintendent of schools will provide a recommendation regarding the completion of the addition along with the implementation of the grandfathering as part of the recommendation in October 2021. The following table illustrates the projected student enrollment, percent of the building occupied, and capacity for Westbrook Elementary School with the classroom shell built out in the fall of 2023.

<b>Westbrook Elementary School</b>	<b>2021-2022</b>	<b>2022-2023</b>	<b>2023-2024</b>	<b>2024-2025</b>	<b>2025-2026</b>	<b>2026-2027</b>
Capacity	547	547	614	614	614	614
Number of Students	354	351	348	343	339	349
<i>Percent Building Occupied</i>	<i>64%</i>	<i>64%</i>	<i>57%</i>	<i>56%</i>	<i>55%</i>	<i>57%</i>
<b>Available Seats</b>	<b>198</b>	<b>196</b>	<b>266</b>	<b>271</b>	<b>275</b>	<b>265</b>

### **Review of Options**

Analysis of the nine options, by school, follows. The analysis is organized by school rather than by the staff-developed options because any one option could have different effects on the three elementary schools. The descriptions below present the effect of each option on the identified school. Please see Attachment B for the options that were presented during the boundary study.

#### Bethesda Elementary School

- The utilization rate for Bethesda Elementary School is projected to be in the range of 129 to 145 percent.

#### *Options 1, 8, and 9*

- Reassign Zones B3 and B8 from Bethesda Elementary School to Somerset Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range between 97 and 109 percent when fully implemented;
- Race/Ethnic changes would be within 2 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 1.0 percent and increase by 0.3 percent, respectively.

#### *Option 2*

- Reassign Zones B8 from Bethesda Elementary School to Westbrook Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range between 104 and 116 percent when fully implemented;
- Race/Ethnic changes would be within 2 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 1.7 percent and increase by 0.6 percent, respectively.

*Option 3*

- Reassign Zones B5 and B6 from Bethesda Elementary School to Westbrook Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range between 94 and 105 percent when fully implemented;
- Race/Ethnic changes would be within 4 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 1.3 percent and increase by 3.5 percent, respectively.

*Option 4*

- Reassign Zones B2 and B3 from Bethesda Elementary School to Westbrook Elementary School
- Provides a contiguous service area for the school;
- Utilization rate would range between 108 and 120 percent when fully implemented;
- Race/Ethnic changes would be within 3 percent for all categories;
- Students receiving FARMS and ESOL services would decrease by 1.7 percent and decrease by 0.7 percent, respectively.

*Option 5*

- Reassign:
  - Zone B2 from Bethesda Elementary School to Somerset Elementary School;
  - Zone B3 from Bethesda Elementary School to Westbrook Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range between 108 and 120 percent when fully implemented;
- Race/Ethnic changes would be within 3 percent for all categories;
- Students receiving FARMS and ESOL services would decrease by 1.7 percent and decrease by 0.7 percent, respectively.

*Option 6*

- Reassign Zones B7 and B8 from Bethesda Elementary School to Somerset Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range between 81 and 88 percent when fully implemented;
- Race/Ethnic changes would be within 5 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 5.9 percent and increase by 3.7 percent, respectively.

*Option 7*

- Reassign:
  - Zones B7 and B8 from Bethesda Elementary School to Westbrook Elementary School;
  - Zone S5 from Somerset Elementary School to Bethesda Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range between 91 and 100 percent when fully implemented;
- Race/Ethnic changes would be within 7 percent for all categories;

- Students receiving FARMS and ESOL services would increase by 8.5 percent and increase by 5.6 percent, respectively.

### Somerset Elementary School

- The utilization rate for Somerset Elementary School is projected to be in the range of 106 to 108 percent.

#### *Option 1*

- Reassign:
  - Zones B3 and B8 from Bethesda Elementary School to Somerset Elementary School;
  - Zones S2, S3, S4, and S5 from Somerset Elementary School to Westbrook Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range between 86 and 91 percent when fully implemented;
- Race/Ethnic changes would be within 4 percent for all categories;
- Students receiving FARMS and ESOL services would decrease by 2.3 percent and decrease by 9.6 percent, respectively.

#### *Options 2, 3, 4, and 8*

- Reassign Zones S4 and S8 from Somerset Elementary School to Westbrook Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range from 87 to 93 percent;
- Race/Ethnic changes would be within 5 percent for all categories;
- Students receiving FARMS and ESOL services would decrease by 3.5 percent and decrease by 2.6 percent, respectively.

#### *Option 5*

- Reassign:
  - Zone B2 from Bethesda Elementary School to Somerset Elementary School;
  - Zones S4 and S5 from Somerset Elementary School to Westbrook Elementary School;
- Provides a non-contiguous service area for the school;
- Utilization rate would range from 94 to 97 percent;
- Race/Ethnic changes would be within 3 percent for all categories;
- Students receiving FARMS and ESOL services would decrease by 2.0 percent and decrease by 2.1 percent, respectively.

#### *Option 6*

- Reassign:
  - Zones B7 and B8 from Bethesda Elementary School to Somerset Elementary School;
  - Zones S2, S3, S4, S5 and S7 from Somerset Elementary School to Westbrook Elementary School;

- Provides a non-contiguous service area for the school;
- Utilization rate would range from 102 to 106 percent;
- Race/Ethnic changes would be within 5 percent for all categories;
- Students receiving FARMS and ESOL services would decrease by 6.0 percent and decrease by 11.3 percent, respectively.

*Option 7*

- Reassign Zone S5 from Somerset Elementary School to Bethesda Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range from 93 to 97 percent;
- Race/Ethnic changes would be within 4 percent for all categories;
- Students receiving FARMS and ESOL services would decrease by 4.1 percent and decrease by 2.1 percent, respectively.

*Option 9*

- Reassign:
  - Zones S4, S5, and S6 from Somerset Elementary School to Westbrook Elementary School;
  - Zone W3 from Westbrook Elementary School to Somerset Elementary School
- Provides a contiguous service area for the school;
- Utilization rate would range from 85 to 92 percent;
- Race/Ethnic changes would be within 10 percent for all categories;
- Students receiving FARMS and ESOL services would decrease by 8.8 percent and decrease by 8.9 percent, respectively.

Westbrook Elementary School

- The utilization rate for Westbrook Elementary School is projected to be in the range of 55 to 57 percent.

*Option 1*

- Reassign Zones S2, S3, S4, and S5 from Somerset Elementary School to Westbrook Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range from 91 to 97 percent;
- Race/Ethnic changes would be within 8 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 5.4 percent and increase by 15.9 percent, respectively.

*Option 2*

- Reassign:
  - Zone B8 from Bethesda Elementary School to Westbrook Elementary School;
  - Zones S4 and S5 from Somerset Elementary School to Westbrook Elementary School;
- Provides non-contiguous service areas for the school;

- Utilization rate would range from 83 to 88 percent;
- Race/Ethnic changes would be within 7 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 4.9 percent and increase by 9.8 percent, respectively.

*Option 3*

- Reassign:
  - Zones B5 and B6 from Bethesda Elementary School to Westbrook Elementary School;
  - Zones S4 and S5 from Somerset Elementary School to Westbrook Elementary School;
- Provides non-contiguous service areas for the school;
- Utilization rate would range from 92 to 100 percent;
- Race/Ethnic changes would be within 7 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 6.2 percent and increase by 8.7 percent, respectively.

*Option 4*

- Reassign:
  - Zones B2 and B3 from Bethesda Elementary School to Westbrook Elementary School;
  - Zones S4 and S5 from Somerset Elementary School to Westbrook Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range from 80 to 85 percent;
- Race/Ethnic changes would be within 10 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 8.6 percent and increase by 11.1 percent, respectively.

*Option 5*

- Reassign:
  - Zone B3 from Bethesda Elementary School to Westbrook Elementary School;
  - Zones S4 and S5 from Somerset Elementary School to Westbrook Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range from 76 to 80 percent;
- Race/Ethnic changes would be within 8 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 7.3 percent and increase by 9.9 percent, respectively.

*Option 6*

- Reassign Zones S2, S3, S4, S5 and S7 from Somerset Elementary School to Westbrook Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range from 93 to 100 percent;

- Race/Ethnic changes would be within 7 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 5.3 percent and increase by 15.4 percent, respectively.

#### *Option 7*

- Reassign Zones B7 and B8 from Bethesda Elementary School to Westbrook Elementary School;
- Provides non-contiguous service areas for the school;
- Utilization rate would range from 91 to 98 percent;
- Race/Ethnic changes would be within 4 percent for all categories;
- Students receiving FARMS and ESOL services would decrease by 0.4 percent and increase by 4.9 percent, respectively.

#### *Option 8*

- Reassign:
  - Zones B3 and B8 from Bethesda Elementary School to Westbrook Elementary School;
  - Zone S4 and S5 from Somerset Elementary School to Westbrook Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range from 89 to 95 percent;
- Race/Ethnic changes would be within 9 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 6.1 percent and increase by 10.8 percent, respectively.

#### *Option 9*

- Reassign:
  - Zones B3 and B8 from Bethesda Elementary School to Westbrook Elementary School;
  - Zones S4, S5, and S6 from Somerset Elementary School to Westbrook Elementary School;
  - Zone W3 from Westbrook Elementary School to Somerset Elementary School;
- Provides a contiguous service area for the school;
- Utilization rate would range from 90 to 97 percent;
- Race/Ethnic changes would be within 12 percent for all categories;
- Students receiving FARMS and ESOL services would increase by 9.7 percent, an increase by 15.5 percent, respectively.

## **Review of Survey Results**

### **Round 1**

An online survey was posted in seven languages (Amharic, English, French, Korean, Mandarin, Spanish, and Vietnamese). A total of 349 individuals responded to that survey. Questions in the survey included, for example, how important each of the three policy factors would be when

considering boundary assignments and asked respondents to indicate their top three preferred options. Please see Attachment C1 for charts illustrating the survey results and Attachment D1 for the raw data.

A summary of the results of the survey is provided below. It is important to note that the following data may not always add up to 100 percent, since not all of the respondents may have answered all of the questions.

The geography factor was indicated as most important when considering boundary reassignments by 70.5 percent of the total number of respondents in the survey, followed by Stability of Student Assignments at 15.5 percent, Facility Utilization at 8.0 percent, and the Demographic factor at 4.6 percent. When disaggregated by school, the survey results show the following:

**Most Important Factor When Considering Boundary Assignments**

Elementary School	Demographic Characteristic of Schools %	Facility Utilization %	Geography %	Stability %
Bethesda	3.3	6.6	74.9	14.8
Somerset	8.5	6.8	62.7	20.3
Westbrook	7.5	13.4	62.7	11.9
Other Schools/No Children in Schools	2.4	9.5	73.8	11.9

Respondents were asked to indicate their top three preferred options (1, 2, and 3 out of 5). Option 4 was selected by 37.8 percent of the total number of respondents as “1”; Option 5 was selected by 30.4 percent of the total respondents as “2”; and Option 1 was selected by 24.9 percent of the total respondents as “3”. When disaggregated by school, the survey results indicate the following:

**Preferred Options by Percent of Respondents by School**

Elementary School	#1		#2		#3	
Bethesda	Option 4	48.6%	Option 5	41.0%	Option 3	25.1%
Somerset	Option 4	30.5%	Option 2	32.2%	Option 5	25.4%
Westbrook	Option 5	47.8%	Option 2	35.8%	Option 4	29.9%
Other Schools/No Children in Schools	Option 4	40.5%	Option 5	31.0%	Option 4 and Option 5	23.8% each

\*Respondents were able to choose the same option more than once.

**Round 2**

A second online survey was posted after four additional options were developed. The survey was posted in seven languages (Amharic, English, French, Korean, Mandarin, Spanish, and Vietnamese). A total of 310 people responded to that survey. Please see Attachment C2 for charts illustrating the survey results and Attachment D2 for the raw data.

A summary of the results of the second survey follows. Again, it is important to note that the data may not always add up to 100 percent, since not all of the respondents may have answered all of the questions.

Geography was selected as the most important factor when considering boundary reassignments by 70.6 percent of all respondents; 5.8 percent of respondents indicated demographic characteristics of student populations; 7.7 percent of respondents indicated facility utilization was most important; and 12.6 percent of respondents indicated stability of assignment was most important. When disaggregated by school the survey results show the following:

**Most Important Factor When Considering Boundary Assignments**

<b>Elementary School</b>	<b>Demographic Characteristic of School %</b>	<b>Facility Utilization %</b>	<b>Geography %</b>	<b>Stability of Assignment %</b>
Bethesda	7.0	3.8	76.4	10.2
Somerset	5.9	23.5	52.9	17.6
Westbrook	2.8	12.7	63.4	12.7
Other Schools/No Children in Schools	6.5	8.7	71.7	8.7

The following two tables illustrate responses when respondents were asked to indicate the top three preferred options. The first table shows the percent of total respondents choosing an option for their first, second, or third preferred option. The second table shows the same information, but is divided by Bethesda, Somerset, and Westbrook elementary school, and Other Schools/No Children in Schools.

	<b>#1</b>		<b>#2</b>		<b>#3</b>	
Total Respondents	Option 4	35.2%	Option 4	22.9%	Option 5	17.1%

When disaggregated by school, the survey results demonstrate the following:

**Preferred Options by Percent of Respondents by School**

<b>Elementary School</b>	<b>#1</b>		<b>#2</b>		<b>#3</b>	
Bethesda	Option 4	46.5%	Option 5	29.3%	Option 5	23.6%
Somerset	Option 7	29.4%	Option 2	20.6%	Option 3 and Option 4	17.6% each
Westbrook	Option 5	52.1%	Option 4	32.4%	Option 4	28.2%
Other Schools/No Children in Schools	Option 4	37.0%	Option 5	23.9%	Option 5	21.7%

\*Respondents were able to choose the same option more than once.

**Next Steps**

The information provided in this report reflects the boundary study process that occurred from January through March 2021. This report, along with online surveys, and community feedback regarding the staff-developed options, will help to inform the interim superintendent of school's recommendation that will be released in October 2021, and ultimately action by members of the Board of Education in November 2021.
