

APPS Course of Study

One of the biggest benefits of the APPS program is that it allows students to take courses that interest them and create their own plan of study to meet their needs. There are some courses that are required for students to take so that they remain in the same cohort as their peers. ***Below is a sample of how most APPS students choose to organize their coursework.*** Required courses for the APPS Program are noted with an *

Elective choices are up to each student. Please keep in mind that students also need to meet their graduation requirements. Those requirements can be found here with a different page for each graduating course.

<https://www.montgomeryschoolsmd.org/curriculum/graduation-requirements.aspx>

Beginning with the class of 2026, APPS students must take the AP Capstone class during their senior year in order to prepare them for their APPS Showcase.

Year	English	Social Studies	Science	Math
