Coordinator Clements's Comments

It's hard to believe it is almost the end of 2023! Next week we will have a modified mentorship meeting with a panel of seniors to give advice about registering for classes and answer questions about dual enrollment and high school course work. This meeting is based on feedback I got from our first round of mentorship meetings. It will be held during 4th period advisory in the auditorium. I will send a pass to your 4th period teacher. Please start thinking of questions you may have for our seniors!

On December 20th I will hold a meeting for seniors during 4th period advisory. This meeting will focus on the process and expectations for the Senior Showcase.

APPS Faculty Spotlight

Natasha Nubgaard

This is my 11th year teaching at CHS. I love working with our incoming APPS students in freshman biology! It's wonderful to watch them develop the critical thinking skills and scientific knowledge that will serve them well in both the classroom and the "real world." I work as a wildlife rehabilitator in my spare time and love to link what we're discussing in class to the research and career opportunities that my students may one day wish to pursue.
